***Reasons for allowance***

1. This communication is in response to applicant's 06/27/2005 amendment in the application of Dove et al. for a "Traffic merging system" filed 06/04/2001. The proposed amendments have been entered and made of record. Claims 2, 16-21 have been canceled per applicant's request. Claims 1, 5, 15 have been amended, and claims 22-27 have been added. The claims have been amended to include the allowable subject matter set forth in the office action mailed on 04/01/2005. The claims have been amended to better point out and more distinctly claim subject matter comprising the invention.
2. Claims 1, 3-15, 22-27 are allowable as evident by applicant's amendment (Claims are renumbered as 1-20 respectively)
3. The following is an examiner's statement of reasons for allowance: The closest prior art of record, either singularly or in combination, fails to disclose or suggest wherein merging payloads of the at least two messages containing identical frame position field values to create a merged payload, and routing the merged payload to a port, and wherein the message that are not merged are positioned at locations within the 6 millisecond superframe independent of the frame position field values within each message that is not merged, as specifically recited in the claims.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
